

**TOWN OF NEW GLARUS**  
**PARKS COMMISSION MEETING**  
**15 FEBRUARY, 2023, 6:00 PM**  
**AGENDA**

NOTICE IS HEREBY GIVEN that Town of New Glarus Parks Commission, County of Green, will conduct a meeting for the transaction of business as is by law required permitted at such meeting as follows:

LOCATION: New Glarus Town Hall  
26 5<sup>th</sup> Avenue  
New Glarus, WI 53574

Zoom Link: <https://us06web.zoom.us/j/87306438562?pwd=L1BpMHYxQW5KQzRoWFdadk1c1I5UT09>

Meeting ID: 873 0643 8562

Passcode: 604753

Dial by your location: +1 312 626 6799

**AGENDA:**

1. Call to Order
2. Proof of Posting
3. Approve January 18, 2023 Meeting Minutes
4. Public Comments
5. Introduce Mike Marty of New Glarus Cares
6. Acquaint Parks Commission with New Glarus Cares and Its Efforts at Candy Cane Park—Mike
7. Provide Update on January 27, 2023, Meeting of Ad Hoc Committee for New Town Park--Chris
8. Review Amendments to 2022 Town of New Glarus Comprehensive Outdoor Recreation Plan (CORP) – Melissa and Matt
9. Recommend to the Town Board That it Approve the Amendment to the 2022 CORP
10. Plan to Secure Support Letters from Town Residents and Members of Ad Hoc Committee for Knowles-Nelson Stewardship Grant Application
11. Provide Update on a) Spring Mailer and b) Donation of Prairie Burn Equipment to The Prairie Enthusiasts, Prairie Bluff Chapter—Jason
12. Discuss Town Attorney’s Draft of Amendment to Parks Commission’s Bylaws to Allow for the Addition of an Alternate Member--Chris
13. Determine the Term of Office (1, 2, 3 years, etc.) for Alternate Members of the Parks Commission
14. Recommend to Town Board That It Approve Parks Commission’s Nomination of Rose Pertzborn as an Alternate Member of the Parks Commission
15. Advise that 40 Each Tree Tube and 40 Each Tree Tube Stake Have Been Ordered from SWH
16. Discuss Xerces Society Free Pollinator Habitat Kit Application
17. Discuss Sign for Side of Town Hall
18. Determine New Date for Holiday Party at the French Residence
19. Schedule Next Meeting, March 15, 2023 at 4:30 PM
20. Adjourn

John Wright, Clerk-Treasurer

Pursuant to applicable law, notice is hereby given that a quorum or a majority of the New Glarus Town Board or Plan Commission Members may attend this meeting. Information presented at this meeting may help form the rationale behind future actions that may be taken by the Town of New Glarus Board. Persons requiring additional services to participate in a public meeting may contact the Town Clerk for assistance at 527-2390.

## PARKS COMMISSION MEETING

Wednesday, January 18, 2023

### Minutes

**Attending:** Chair Harry Pulliam, Mark Pernitz, Kelly Ruschman, Jason Neton, and Chris Narveson (arrived at 6:08 PM)

**Absent:** Mona Sue French and Dana Emmerton

**Also Attending:** John Wright (departed at 6:08 PM): Clerk Treasurer; Filip Sanna (departed at 7:09 PM) and Shahnaz Shahidain: Village of New Glarus residents; Jason Granberg (virtually, departed at 7:09 PM): Conservation Biologist with the WI DNR; Matt Wallrath (virtually, departed at 7:09 PM): Upper Sugar River Watershed Association; Rose Pertzborn: Town of New Glarus resident; and Matthew Miller (virtually, departed at 6:50 PM) and Melissa Hunt (virtually, departed at 6:50 PM): Vierbicher.

- 1. Call to Order:** Meeting was called to order by Chair Pulliam at 6:02 PM.
- 2. Proof of Posting:** Clerk-Treasurer Wright attested to proper proof of posting. Wright noted that he created notes for the group, independent of the packet, for items discussed at the virtual meeting held on January 13, 2023 between Cheryl Housley, Chair Pulliam, Commissioner Narveson, Matthew Miller, and Melissa Hunt as well as email correspondence between Pulliam and a tree vendor and notes regarding options for creating bylaws for Parks Commission alternates or assistant.
- 3. Approve December 21, 2022 Meeting Minutes – Motion to approve the minutes, as presented, was made by Commissioner Neton; second by Commissioner Ruschman. Motion carried 4-0.**
- 4. Public Comments:** Shahnaz Shahidain had attended the January 11, 2023 Town Board meeting and was referred to this body with her comments. Ms. Shahidain is seeking a plot of land to make available publicly, but not to own. Ideally, it would contain a community garden with fruit trees. There followed a brief discussion of the merit of this idea and how or whether it might fit into the overall plans for the land recently purchased by the Town.  
  
Without objection, item 9 on the agenda will be discussed next.
- 9. Discuss Vierbicher Providing Language to Amend 2022 CORP in Support of a) Land Acquisition for New Town Park and b) Writing Knowles-Nelson Stewardship Grant Proposal –** Melissa Hunt and Matt Miller, from Vierbicher, discussed the Knowles-Nelson Grant application process, the requirements, and the proposed timeline to meet the May 1, 2023 deadline. The current Town of New Glarus Comprehensive Outdoor Recreation Plan (CORP) will need to be amended to identify the location and size of the passive recreation area of the purchased land as one of the required steps to qualify for grant funding to offset acquisition costs. It was noted that a Letter of Retroactivity has already been issued by Cheryl Housley at the Wisconsin Department of Natural Resources. The boundary survey of the entire property should be available soon. If active recreational facilities are considered in the future (e.g., pickleball court, playgrounds with equipment, etc.), they cannot be within the area funded by the Knowles-Nelson Grant. The CORP amendment will be based upon the discussion at the upcoming ad-hoc subcommittee meeting to take place on Friday, January 27, 2023 at the Town Hall, starting at 3:00 PM. Updates to the

CORP will need to be adopted by the Board (by resolution) following a duly posted public hearing. There followed a brief discussion regarding a possible second access on the northeast end of the property from State Highway 39.

- 5. Introduce Speakers for February 25, 2023, Prairie Management Workshop: Jason Granberg, Fil Sanna, and Matthew Wallrath** – Commissioner Neton, who organized the workshop, suggested that each speaker limit their presentation to 30 minutes to allow for some questions and answers. He then introduced those who will present at the February workshop to be held at Tofflers Pub and Grill in New Glarus. Wallrath agreed to be the first to speak about invasive species, particularly those which have a high impact locally. Granberg agreed to present second to address how climate and settlement changes have affected invasive proliferation locally and how invasives species are tracked through data mining and mapping. Sanna will then close the workshop since his local efforts will illustrate the practical application of the topics covered by the first two speakers. Commissioner Neton will continue to work with the panelists to finalize details.

- 6. Review Spring Mailer** – the current draft of the flyer, prepared by Commissioner Neton, was presented to the group for review and discussion. Commissioner Narveson suggested for the physical address of the Town Hall be added to the location for the annual tree sale pickup and for the electronic recycling drop off. Other recommendations were offered which Neton will consider for the final version to be printed and mailed.

Motion to approve the draft mailer, that will incorporate the agreed upon changes, was made by Commissioner Pernitz; second by Commissioner Neton. Motion carried.

- 7. Present Town of New Glarus 2023 Meeting Calendar; Reschedule April 19, 2023 Parks Meeting** – due to the Annual Town Meeting of the Electorate being scheduled at the same time and date as the regular Parks Commission meeting in April, without objection, the Parks meeting will be held at 4:30 PM instead of 6:00 PM.

- 8. Consider Recommending to the Town Board that Ms. Rose Pertzborn be Appointed to the Parks Commission as Either a Member or an Alternate** – Wright had provided multiple options available, according to Wisconsin Statute 60.66 and as confirmed by Wisconsin Towns Association attorney Lara Carlson. Other than another Commissioner resigning their term and the vacancy filled by Pertzborn, the Commission would need to create bylaws for other possible solutions that include Pernitz serving as an alternate or being appointed as an assistant.

Motion by to authorize Commissioner Narveson to contact the Town Attorney, Mark Hazelbaker, regarding his recommendation for Commission bylaws for the appointment of Rose Pertzborn as an alternate Parks Commission member, with the ability to vote in the absence of another member, and to be compensated with a per diem when attending in the absence of another member; second by Commissioner Ruschman. Motion carried.

- 10. Provide Update on Work of Ad Hoc Committee for New Town Park** – Chair Pulliam provided a brief summary of the discussion that took place last week and those who were in attendance. If the grant funds requested are more than \$350,000, the DNR will also need to conduct an appraisal to determine the value of the passive recreational land. If the request exceeds \$250,000, then the Joint Finance Committee of the Wisconsin State Legislature would need to review. Commissioner Narveson noted that the ad-hoc subcommittee will

discuss how much of the property and which portion will be set aside for passive recreation, possible residential development, for public facilities, active recreation, etc.

11. **Discuss Procedure for Donating Burn Equipment to The Prairie Enthusiasts, Prairie Bluff Chapter** – Commissioner Neton reported that he spoke with Tom Mitchell from The Prairie Enthusiasts about the local chapter interest in the controlled burn tools purchased by the Parks Commission in the past. After brief discussion, Neton agreed to contact the Town Patrolperson to coordinate the transfer of equipment, without objection.
12. **Provide Update on Tree and Root Dip Purchases for Fall 2022 Tree Sale** – Chair Pulliam reported that he has ordered trees and root dip.
13. **Decide on Quantity of Tree Tubes to Order, Including for the Trees for the Town Park and from What Vendor**  
Motion to authorize Chair Pulliam to order forty tree tubes and forty tree stakes from Sustainable Wildlife Habitats was made by Commissioner Narveson; second by Commissioner Pernitz. Motion carried. Without objection, tree stakes will be sold for \$2 apiece during the scheduled tree pickup event.
14. **Review and Approve 2023 Parks Commission Budget** – The approved 2021 budget was used as a reference point to craft a 2023 Parks Commission budget.  
Motion to adjust the per diem expense item to include an alternate member in addition to the seven regular commissioners; these funds would be deducted from the Parks Workshops/Projects expense line; second by Commissioner Ruschman. Motion carried.
15. **Discuss Sign for Side of Town Hall** – without objection, discussion of this item will be deferred until the February meeting.
16. **Confirm Holiday Party for 7 PM, Saturday, January 28, 2023, at the French Residence** – the group confirmed the time and location for this gathering.
17. **Schedule Next Meeting** – The next meeting will be held on February 15, 2023 at 6:00 PM.
18. **Adjourn:** A motion to adjourn was made by Commissioner Pernitz; second by Commissioner Neton. Motion carried at 8:02 PM.

Approved:

# INTRODUCTION

## Purpose

Parks, recreation, trails, and open space are essential elements in the quality of life for all communities. Increased demand for recreational opportunities, including outdoor recreation, has led to increased pressure on existing recreational facilities. To meet this demand the community is expected to provide additional facilities or improvements that offer residents a wide range of quality recreational opportunities.

Therefore every five years, The Town of New Glarus updates their Comprehensive Outdoor Recreation Plan (CORP) as a tool for the community and to stay eligible for matching government funds for parkland and recreation improvements under Wisconsin Department of Natural Resources requirements.

The Town of New Glarus CORP is an expression of the community's goals and objectives for current and future needs for trails, parks, and open space. The intent of this document is to guide the continual improvement of the Town's trails, parks, and open space for local residents and visitors. The Parks Commission and Town Board shall make policy decisions for trails, parks, and open space based on this adopted plan. Actual implementation is contingent on funding sources, new opportunities, budget priorities and changing community needs and desires.

## Statewide Comprehensive Outdoor Recreation Plan

The state is currently updating their 2017 – 2022 Wisconsin Statewide Comprehensive Outdoor Recreation Plan (SCORP). The primary actions for the 2017 – 2022 SCORP include collecting data on outdoor recreation preferences of Wisconsin citizens, updating data on the supply of outdoor recreation opportunities, with a focus on properties open to the public for nature-based outdoor recreation, and developing priorities for future recreation funding.

*At its core, the SCORP is used to help allocate federal funds equitable among local communities, but the document also transcends many levels of outdoor recreation discussion and policy. – Wisconsin SCORP*

## Role of Parks, Recreation, and Trails

Parks, recreation, and trails shape community image, public health, and bring economic opportunity. Recreational opportunities provide individuals the possibility to socialize with other people. Open space also provides places for individuals to recharge mentally.

## Tourism and Economic Impact

Trails and Greenways positively impact individuals and improve communities by providing not only recreation and transportation opportunities but also influencing economic and community development. Many of these benefits include:

- Making communities better places to live by preserving and creating open spaces.
- Encouraging physical fitness and healthy lifestyles.
- Creating new opportunities for outdoor recreation and non-motorized transportation.
- Strengthening local economies.
- Protecting the environment.
- Preserving culturally and historically valuable areas.

Various Studies demonstrate that parks and trails increase nearby property values and nearby businesses. Connecting residents and visitors to parks and recreational facilities and community facilities is important to encourage safe, alternative modes of transportation. The Town wishes to connect to the Village of New Glarus, nearby communities, and regional trails. This allows for residents to travel safely to locations outside the Town of New Glarus and invites visitors into the Town. Dedicated bicycle and pedestrian trails improve the comfort of users, open new

travel options, reduce automobile traffic, increase recreation and exercise and help create more livable communities.

One such study observed the economic impacts of the Wisconsin State Park system<sup>1</sup>. This study reviewed the mechanisms that link state parks and trails to local economic impacts. Research questions included: "To what extent do differing visitor types spend their trip dollars in the local region around these sites?" and "How do visitors to state parks and trails contribute to local job creation and income generation within gateway communities across the state?" The study found that outdoor recreation on public lands serves as a key motivator for tourism. Researchers analyzed trip-related expenditures and excluded non-trip related spending. According to the study, visits to New Glarus Woods State Park had total visitor expenditures of \$3,268,698 with \$1,372,466 from local visits and \$1,896,232 from non-local visits.

### Summary of Previous Plans

The previous Town of New Glarus CORP was completed in 2011 by the Town Parks Commission. This plan focused on trail identification, conservation, provision of educational workshops, and collaboration with the Village of New Glarus on various recreation opportunities. Specifically, the 2011 plan identified the continuing restoration efforts of the Bluebird Ridge Conservancy and acquiring Town land for a community park with a potential Town Hall site. As noted in the accomplishments section, the Town successfully continues restoration efforts and has built a Town Hall. The Town completed a whole new plan in 2017. This 2022 update provides an update to the goals and objectives, accomplishments, data, survey, and recommendations.

### Town Parks Commission

The Town Parks Commission formed in 2004 to improve and maintain parks in the Town. The Town approved the first CORP in 2006, with an update

in 2011. The Parks Commission seeks to balance spending its limited dollars between long-term and immediate needs of the community. The Town and the Village formed a joint Town/Village Committee in 2009 to pursue goals mutually beneficial to both communities. The joint committee meets quarterly with the location rotating between the Town and Village.

The Parks Commission has held numerous workshops focused on objectives from the 2011 CORP. The Town is dedicated to preserving and protecting the natural environment and formalizing partnerships in the process. The following section lists the accomplishments and workshops completed since 2011. See appendix for additional workshops held.

### Accomplishments

#### 2017 Plan

- Sponsored Bee Club.
- Identified lands available for acquisition for future recreational use.
- Marked conservancy areas with proper signage and list on a Parks Master Plan map.
- Posted signage at Blue Bird Ridge Conservancy.
- Identified naturalist and environmental groups that help with preservation and provide grant money to assist residents.
- Identified grants for recreational use.
- Consulted with the Green County Forester regarding the creation of a Town Tree Planting Program for interested property owners.
- Held annual Tree Sales and contributed yearly to the Arbor Day Project.
- Educate Town residents on measures they can take to preserve their own property and foster proper environmental practices.
- Shared funding or improvements for facilities such as the ice skating rink.
- Acquired and renovated a new Town Hall.

#### 2022 Plan

- Established paved bike / walking lanes alongside Durst and Valley View Roads.

<sup>1</sup> Economic Impact Study  
<https://urpl.wisc.edu/sites/urpl.wisc.edu/files/people/marcouiller/13EISPfinal.pdf>

- Continued native plant and prairie restoration at Bluebird Ridge Conservancy.
- Held annual tree sales, donating proceeds to the Boy Scouts, 2017-2022.
- Promoted well water testing programs in 2017 and 2021.
- Hosted Sugar River Beekeepers monthly meetings in 2018 and 2019.
- Organized and supported photo contests in 2018, 2019, and 2020 to highlight rural scenes in the Town of New Glarus.
- Helped fund renovations to the ball field at Glarner Park in 2021.
- Held a highly successful electronics recycling event in 2022.

### Workshops\*

- 2007-2010 - Parks Commission Workshops
- 2011 - Raptor Workshop
- 2012 - Barn Renovation Part 1
- 2013 - Tree and Barn Renovation Part 2
- 2014 - Tree and Bird and Conserving
- 2015 - Tree and Bee
- 2016 - Tree and Bat
- 2017 - Tree in May and Water in August
- 2017 - Well water test results workshop
- 2017 & 2019 - Birdhouse building workshops
- 2018 - Community-Supported Agriculture workshop
- 2018 & 2019 - Beekeeping Basics workshops
- 2019 Invasive Plants workshop
- 2020 Beekeeping Basics Workshop
- 2020 River Tripping Workshop (twice)

\*Detailed List of the Workshops are included as Appendix D.

Figure 1: Raptor Workshop

### Planning Process

Recreation and trail planning are essential components of long-range community planning in the Town of New Glarus. The Town of New Glarus contracted with Vierbicher to complete the 2022 update. Vierbicher and the CORP committee facilitated public meetings and an online survey (see Appendix A) to gather citizen feedback on future priorities for the next five years. The process involved two public engagement meetings—one at the beginning of the process and one after the draft goals and objectives were created. A public hearing was held prior to plan adoption. This plan was developed following the guidelines for Development of Local Comprehensive Outdoor Recreation Plans created by the Wisconsin Department of Natural Resources.

### Plan Process Timeline

#### March 2022

- Kick-off Meeting
- Parks Commission Survey Development
- Future Trail and Park Discussion

#### April 2022

- Community Survey distributed

#### June 2022

- Parks Commission Review of draft survey results

#### July 2022

- Public Open House at Parks Commission

#### August 2022

- Review draft Plan
- Review draft Plan at Parks Commission and Plan Commission

#### October 2022

- Public Hearing
- Town Board Approval

## Amending the Plan

Plan amendments are common and should be considered part of the planning process. Amendments frequently represent good implementation or plan usage and should be acceptable for consideration by local decision makers. The Parks Commission does not have to wait five years before amending the CORP. Amendments must follow the same process as when the original plan was prepared. Amendments generally prolong the effectiveness of the original plan.

There should be opportunity for public input in the planning process with a full and open discussion of the need for the amendment by the Parks Commission, a draft amendment that is reviewed and acted on by the Parks Commission at an official public meeting, a referral to the Town Board, a public hearing held by the Parks Commission or Town Board, and finally, the adoption of the plan amendment by the board.

Amendment 1 - Reviewed and recommended for approval by the Parks Commission on February 15, 2023 and then approved and adopted by the Town Board on March 8, 2023.

## Plan Goals and Objectives

The Parks Commission developed five main goals to guide the future growth and development of the Town. One of the most important roles of local government is its responsibility to provide open space, parks and recreation facilities and programs for public use.

### **Goal 1: Provide active and passive recreational lands to meet current and future recreational needs of the community and visitors.**

1. Respond to community requests for provision of recreational resources.
2. Respond to future needs as they are identified.
3. Obtain additional lands for a community park based on demand by increasing populations, or the environmental and recreational significance of the land.

### **Goal 2: Provide safe and efficient pedestrian and bicycle access between residential neighborhoods, schools, the Village, and other recreational activities.**

1. Refer to this plan in review of development proposals.
2. Develop a trail system throughout the Town to link schools, state parks, and the Sugar River Trail.
3. Link subdivision areas to the Village by pedestrian/bike trails.

### **Goal 3: Preserve and enhance environmental corridors.**

1. Identify and conserve areas of particular interest, unique plant or animal life, scenic views, environmentally sensitive areas, or native natural areas.
2. Identify lands available to obtain if the potential exists for future recreational use.
3. Use park and recreational lands as a means to promote environmental education and community history.
4. Continue the Town Tree Planting Program.
5. Educate Town residents on measures they can take to preserve their own property and foster proper environmental practices.

### **Goal 4: Coordinate Park and recreation planning and development.**

1. Identify and conserve areas of particular interest, unique plant or animal life, scenic views, environmentally sensitive areas, and native natural areas.
2. Coordinate park and open space planning and development with adjacent governments, school districts, Green County, state and federal agencies, and other owners of public and private open space in the community.
3. Continue to ensure the availability of recreational activities for the enjoyment and benefit of all Town residents in partnership with the Village of New Glarus and New Glarus School District.
4. Preserve areas planned for future parks and recreational trails from development.
5. Complete regular reviews and updates of this plan with the Town Comprehensive Plan.
6. Provide opportunities for public participation in park and recreational facility development.
7. Encourage volunteers to participate in park programming.
8. Provide electronic communications to our community.

### **Goal 5: Continue education and awareness programs.**

1. Continue to provide workshops for the community.
2. Educate the general public on needs and improvements for the parks and trails system.
3. Integrate historical and cultural resources into bicycle and pedestrian facilities.
4. Provide education of and facilitate well testing.

# EXISTING CONDITIONS

## About the Town of New Glarus

The Town of New Glarus is a picturesque community in Green County, Wisconsin that was originally founded in 1845 by Swiss settlers. According to the Wisconsin Department of Administration, the Town has a population of 1,421 (2021) with an expected population of 2,020 by the year 2040, a 42 percent increase (Figure 2). Figure 3 is a population pyramid that shows a snapshot of the Town's population taken from the 2020 American Community Survey (ACS). The age distribution is roughly the same as it was in 2015. While there are not many 20–34-year-olds, there is a spike in the 35 to 54 year old age category and a large percentage of children under the age of 19.

The Town has been continually growing for the past 20 years and will continue to grow. While the Town had many farms, that has changed over the years due to the construction of residential subdivisions. The Town has transitioned from a traditional rural town to a bedroom community populated by commuters residing on small tracts of land. Table 1 illustrates the land use classification. Current land ownership reflects a more complex blend of limited traditional agriculture, non-traditional agriculture, suburban developments, and rural single-family homes on lots ranging in size from two to forty acres.

### Growth Patterns

Due to its close proximity to Madison the Town is experiencing continuous growth, especially through construction of new residential subdivisions. The Town has transitioned to a bedroom community. The Town must consider the current residents and future residents when planning for park recreation. According to the Village of New Glarus future land use map (figure 4), neighborhoods and industrial areas are planned within the Village's Extraterritorial Jurisdiction of the Town. The Town Parks Commission considered these growth areas when planning for recreation.

### Physical Characteristics of the Region

The Town is located only 26 miles from Madison Wisconsin, the Capital, in Green County. Green County has many recreational amenities such as the Sugar River State Trail, Badger State Trail, New Glarus State Woods and the Albany Wildlife Area. The Sugar River Trail connects New Glarus to

Monticello, Albany and finally to Brodhead for a total of 23 miles. The Badger State Trail connects to the Sugar River Trail in Monticello which is only six miles from New Glarus. The Badger State Trail connects to an additional 40 miles between Madison and the Wisconsin – Illinois border. These trail systems connect to larger trail systems in Wisconsin such as the Military Ridge State Trail and the Ice Age National Scenic Trail.

## Topography, Soils, and Water Resources

The Town of New Glarus is located in the Southwestern Wisconsin Driftless Area, a unique geological region that was untouched by the Wisconsin Glacier. This creates a notable contrast with the remainder of the state, where the continental glacier scraped away nearly all the residual soil and left a sheet of transported soil. The Town area's topography creates dramatic viewsheds and is ideal for biking, hiking, sightseeing, skiing and other outdoor activities. There are eight soil associations in Green County which include:

- Dodgeville-Edmund
- New Glarus-Sogn
- Fayette-Tama
- Dunbarton-Whalan
- Hebron-Saylesville
- Orion-Huntsville-Etrick
- Durand-Myrtle-Rockton
- Dickinson-Meridian

The Town is located in the Little Sugar River watershed and has two waterways running through it: The Little Sugar River and the Legler School Branch.

## Outdoor Recreation Supply

While the Town does not currently have a community park, it does have the Bluebird Ridge Conservancy and access to park facilities and programming through the school district and the Village. Figure 5 illustrates the available outdoor recreation opportunities discussed in the following section.

### Bluebird Ridge Conservancy

In the Town of New Glarus, the Bluebird Ridge Conservancy is a 4.29-acre area accessed through a forty foot-wide frontage on Windmill Ridge Road. The Town installed a sign marking the conservancy in spring 2011. A narrow grassy path runs 175 feet off Windmill Ridge Road. At that point, the lot widens to resemble the shape of a diamond. There is a natural oak savannah area in the center with attractive views of the countryside. Major plantings in the conservancy include: White Oak, Black Cherry, Prickly Ash, Sumac, Mulberry,

Dogwood, Viburnum, and Buckthorn. Timothy and Brome are the major grass species.

Long-term plans for the conservancy include the study of oak savannahs and prairies that were

Figure 5: Available Outdoor Recreation Opportunities

native to this area prior to the arrival of European settlers, and development of habitat to support wildlife such as the Eastern Bluebird.

## School District Facilities

The New Glarus School District's parks consist of regulation football/soccer field north of the elementary school, practice fields for football and soccer south of the elementary school, and outdoor basketball courts south of the high school. The park also consists of three tennis courts, which have been resurfaced and are open for public use when they are not in use by the schools.

## Village Facilities

Town residents have the ability to use the Village of New Glarus Parks and Park Shelters. The Village has five parks that include such amenities as a fishing pond, playground equipment, soccer fields, baseball fields, tennis courts, a sand volleyball court, picnic areas, water fountains, shelters, and a swimming pool. The following is the list of parks in the Village:

- Hoesly Pond
- Candy Cane Park
- Valle Tell Park
- Veteran's Memorial Park
- Village Park
- Glarner Park

Additionally, Town residents have the opportunity to use Village recreational programming.

## New Glarus Woods State Park

The New Glarus Woods State Park is located within the Town of New Glarus. The park has approximately 105 acres, 38 campgrounds, eight trails and the Sugar River Trail spur (1.6 miles) that connects to the Village of New Glarus. See Appendix C for the New Glarus Woods State Park.

## Existing Trails

As discussed previously, the Sugar River State Trail passes through the Town of New Glarus and connects to areas outside the Town that include communities in Green County. Additionally, in Monticello the Sugar River State Trail connects to the Badger State Trail, which connects to additional trails in the State of Wisconsin and the State of Illinois. Green County recently developed an on-road rural bike route online map for Green County (figure 6). The route travels along New

Glarus city streets, Kubly Road, Airport Road, Valley View Road, Argue Road, Tunnel Road, Marshall Bluff Road, Exeter Crossing Road, County Highways D and C, and County Road EE. University of Wisconsin-Platteville engineering students developed the map based on state standards for on-road bicycling.<sup>1</sup> In addition to walking and biking there are also trails for snowmobiling.

Figure 6: Green County On-road Bicycle Map

<sup>1</sup> A Bike Tour: The City of Monroe and Green County

## 2022 Budget

The Parks Commission Budget is allocated to the following line items:

- Town Park/Town Trail Sinking Fund - \$4,500
- Trail Development - \$500
- Per Diems - \$2,405
- Payroll Taxes - \$181
- Parks Workshops/Projects - \$4,938
- Park Postage - \$250
- Printing - \$300
- Arbor Day Tree Planting - \$300
- TPE Membership, New Glarus Woods - \$300
- Recruitment - \$100
- Pool Scholarships - \$26
- Maintenance/Restoration of BRC - \$1,200

## New Opportunity

The Town had an opportunity in late 2022 to acquire 97.4772 acres of land. This newly acquired land provided the opportunity for the community to explore more options for park land in the community. See Figure 9 "Town of New Glarus Future Park Map" later in document.

## New Town Park

Of the 97.4772 acres of land acquired in 2022, 35-75 acres of land will ensure newly dedicated passive park land and trails to the Town of New Glarus. The additional land may be used for other Town facilities and include active or passive park land.

The Town also intends to explore opportunities for Community Garden space in the Town. This new land will allow the Town to dedicate an area for future Community Garden space.

The continuation of trails continues to be an important priority for the Town. The new park allows multiple opportunities for trails and newly developed paths. In addition to trails, the potential future Town Park would access the Legler School Branch of the Little Sugar River. This will open the opportunity for access to a stream on publicly accessible land.

The Town Board created an Ad-Hoc Committee to assist in planning the new park area and to ensure access to passive recreational opportunities in the Town.

## Needs Assessment

To accomplish the outdoor recreation needs assessment, Vierbicher and the Town Parks Commission developed an outreach strategy for the Town of New Glarus.

Public meetings were held allowing for the community to learn about the CORP and provide feedback on needs, goals, and objectives.

### Sample Recreation Open Space Standards

Park and Open Space Standards and Guidelines for the Plan Commission and Parks Commission govern the process for locating future parks. There are three typical sizes of local parks the Town would provide: a mini-park, a neighborhood park, or a community park. Each size park has a recommended service area (distance to park), desirable size, (number of acres per one thousand people), and desired site characteristics.

This classification system presented in Table 2 is intended to serve as a guide to planning—not as an absolute blueprint. Sometimes more than one component may occur within the same site (but not on the same parcel of land), particularly with respect to special uses within a regional park. Planners of park and recreation systems should be careful to provide adequate land for each functional component when this occurs.

The National Recreation and Park Association (NRPA) suggests that a park system, at a minimum, should be composed of a “core” system of parklands, with a total of 6.25 to 10.5 acres of developed open space per one thousand people. The size and amount of “adjunct” parklands will vary from community to community but must be taken into account when considering a total, well-rounded system of parks and recreation areas.

Table 2 communicates the recommended standards for service area, size, density, use, and site location. Mini parks are the smallest type of Municipal Park, ideally spanning no more than one acre of land and designed to service no more than the quarter-mile radius surrounding the park. Neighborhood parks are the next largest type, preferably spanning at least 15 acres of land and serving up to a half-mile radius in every direction. These parks generally accommodate approximately 5,000 users—roughly the size of a city neighborhood.

Community parks are the largest park type. Designed to serve users within a 1 to 2 mile radius, community parks are ideally no less than 25 acres in size, with a density of 5 to 8 acres per thousand users. Parcel sizes are typically one acre for mini parks, two acres for neighborhood parks, and five acres for community parks.

Table 2: Sample Recreation and Open Space Standards

| Park Type         | Service Area  | Desireable Size  | Acres/1,000 Population | Use  | Site Location   |
|-------------------|---|------------------|------------------------|--|---|
| Mini Park         | Less than ¼ mile radius   | One acre or less | .25 to .50 acres       | Specialized facilities that serve a concentrated or limited population or specific group such as young children or senior citizens.                | Within neighborhoods or adjacent to schools, elderly housing. The facility should be easily accessible by walking for senior citizens or parents with small children. |
| Neighborhood Park | ¼ to ½ mile radius to serve population up to 5,000 (a neighborhood) | 15+ acres        | 1.0 to 2.0 acres       | Area of intense recreational activities such as field games, court games, crafts, neighborhood center.   | Proximity to elementary schools, or centrally located in developed areas with safe walking and biking areas.  |
| Community Park    | Several neighborhoods<br>1 to 2 mile radius                         | 25+ acres        | 5.0 to 8.0 acres       | Area of natural or ornamental quality for outdoor recreation such as walking, viewing, sitting, picnicking, could have some field and court games. | Proximity to community facilities and resources.  |

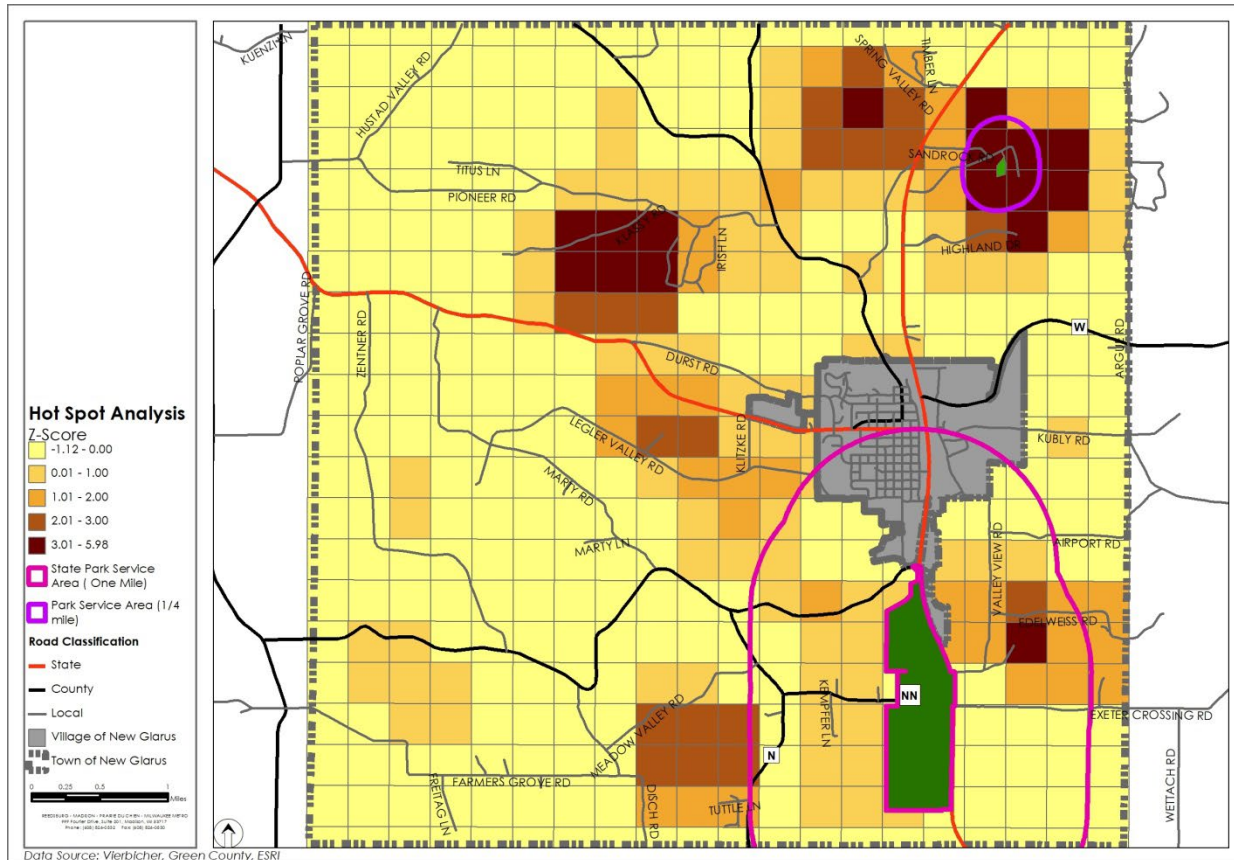

Placement of parks is dependent on multiple factors. Parks should be easily accessible from commonly used pathways such as roads, sidewalks, or trails, and should function as a complement to surrounding uses. Residents and visitors are more likely to use parks if they are easily accessible from high population areas, and their construction fluidly mixes with surrounding commercial or residential areas. Likewise, parks should be located in areas with high enough population densities to ensure adequate use.

Based on these criteria, there are multiple locations in the Town that would accommodate each type of park. Figure 7 shows a heat map of the Town based on population density. Dark brown areas indicate locations with the highest population densities, with gradually lighter colors indicating areas with lower population densities. Yellow areas generally indicate agriculture, open space, and undeveloped land, and green regions indicate the location of existing parks.

The Bluebird Ridge Conservancy and New Glarus Woods State Park are both located within the planning area and serve portions of the Town. A contiguous ring of moderate to higher density neighborhoods surrounds the municipal boundary of the Village of New Glarus. New Glarus Woods State Park serves the southern half of the Village along with many of the southern residential areas in the Town. Bluebird Ridge Conservancy serves the higher density residential area in the northeast of the planning area.

Demand for future parks is greatest in the higher density residential areas lying just west of the Village, along with the higher density areas in the Town's northern and northeastern portions, as shown on Figure 7. The Town could consider placing a large community park in low density areas along Old Madison Road in order to capture residents from the three large clusters of high population density in the northern half of the planning area. Location of a neighborhood or community park would also capture large numbers of residents if located off either Durst

Figure 7: Population Density

Road or Legler Valley Road due west of the Village boundary.

Factors affecting when to build new parks include: possible changes to land use, population growth, and expected development patterns. While retrofitting of old development into parkland is a possibility, these circumstances generally mean that a municipality has less control over the aesthetics and design of the park. Plans for future parks in low density areas should be considered well in advance of development to ensure parks harmoniously complement adjacent uses. Population growth is the second determining factor contributing to decisions about park placement. The Town's population is expected to grow by 44% between 2016 and 2040, adding substantial future demand for recreational opportunities. The Town should monitor expected population changes and identify areas of expected future growth.

### Community Survey

A survey was distributed online and made available in hard copies at the Town Hall. In total, 173 individuals responded from the Town and surrounding area. A total of 105 individuals specifically from the Town of New Glarus participated in the survey. The results from the Town residents are included in the appendix. Please note not all respondents answered every question. Therefore, the number of responses to any one question may not total 105.

The survey results were shared with the Parks Commission, on the Town's website, and at a public forum held on July 20, 2022. The results of the survey, public forum, and evaluation were instrumental in framing the outdoor needs assessment.

The primary purpose of the survey was to understand the current usage of available amenities, and identify the need for future parks, facilities, and recreational spaces. The figures in the appendix demonstrate the use of amenities and interest in amenities.

Survey participants noted in the open-ended questions that they favor more trails that connect Town neighborhoods, Village amenities, and

regional trails. Several comments mentioned that a community center containing an indoor pool, fitness facilities, multi-purpose gyms, and a walking track are desired. It was also mentioned that if the Town supports the Village park and recreation program, then the park programming fee should be lower for Town of New Glarus residents.

Most of the users indicated they **regularly or occasionally use** the following:

- Conservancies
- Public Swimming Pool
- Natural Surface Recreation Trails
- Paved Hiking/Biking Along Roadway

Most users indicated they **never use** the following

- Baseball/Softball Fields
- Soccer Fields
- Basketball Courts
- Tennis Courts
- Volleyball Court
- Playgrounds and Equipment

More users indicated they are **very or somewhat interested** in the following:

- Indoor Community Recreation Center
- Outdoor Ice-Skating Rink
- Adult Recreational Programs
- Trails that Connect Town to Village
- Pickleball Courts

An even number of users indicated they were **very or somewhat interested** (43 respondents) vs. **not interested in or opposed** (43 respondents) in the following:

- School-year Recreational Programming

More users indicated they were **not interested in or opposed** to the following:

- Dog Exercise Area
- Exercise Stations on Park Trails
- Football/Lacrosse Fields
- Frisbee Golf Course
- Designated Mountain Bike Trails
- School-year Recreational Programming

## RECOMMENDATIONS

The Town has great opportunity to provide active and passive recreational activities and to connect recreational activities inside and outside of the Town. The recommendations in this section have been developed based on feedback from citizens of the Town, and discussions within the Parks Commission, and Plan Commission. As the Town develops, the development policies of the Town may provide opportunities to expand upon these initial recommendations.

As mentioned previously in the plan, the Town had an opportunity in late 2022 to acquire 97.4772 acres of land. This newly acquired land provided the opportunity for the community to explore more options for parkland in the community. Additional strategies have been added to incorporate this addition of potential park land to the Town.

In 2017, The CORP Committee spent time during the first public forum identifying potential trails that connect to neighborhoods, state parks, the Village, and the Sugar River Trail. At the second public forum, the CORP committee discussed the community-wide survey results; specifically, the demand for a trail to connect the northern subdivisions to the Village. The focus of the discussions was to enhance the existing Town facilities and provide better connections between the residents and these facilities. Creation of new facilities (other than new connections or trails) was not considered a significant priority at this time.

In 2017, The CORP committee identified nine potential trails and ranked their priority for connections based on the community survey, existing connections, and potential future development. However, in 2022 through engagement with residents since 2017 and the 2022 plan update process, the Parks Commission has updated the proposed trail map. No proposed trails were removed from the map. However, two trails that were identified as high-priority in 2017, and one medium-priority were

reduced to low-priority. Thus, leaving two trails as the priority. No work should be completed on the low priority without full discussion on the improvements. Table 3 identifies the potential future trails, the priority, length, and location. It is assumed that the majority of trail locations will be in the public right-of-way. However, in certain locations, the Town will work with local property owners to negotiate access easements for public trails. The trail construction type has not been identified for each trail at this time, but generally, the trails considered would be a grass or crushed stone surface.

Figure 8, "Proposed Future Trails", shows the potential trails along with the corresponding Trail ID numbers and priority levels. This map represents both existing and potential future trails. Additional research and surveying will need to be completed to determine the placement and construction type of trails. These trails are intended to connect various locations within the Town and to increase access to the community parks system. Because these trails will serve the entire Town by increasing access and connectivity, it is justifiable to consider impact fees as a method to capture the portion of costs attributable to new development.

Figure 9 "Town of New Glarus Future Park Map" shows the possible future park land in the Town. Figure 10: "Potential Future Park Area" is a more detailed look at the potential future park area.

Executing these recommendations is essential to accomplishing the goals and objectives of this plan. On the following pages, tables presenting the list of Goals in the 'Plan Goals and Objectives' section, are paired with strategies to achieve the goal, a time frame, and responsible parties or partners for implementation. A significant component of implementing the plan goals is collaboration between large and small acreage landowners, developers, and the Town Committees and Boards. Balancing the Town goals with individual property owners' rights is paramount to maintaining goodwill throughout the community and fostering an environment that supports the plan goals. Achieving plan goals using the condemnation process is not desired.

Table 3: Potential Future Trails Information

| Trail ID | Priority | Length | Location  |
|----------|----------|--------|---|
| 1        | High     | 0.74   | County Highway NN - from County Highway N to beginning of New Glarus State Woods Park boundary.   |
| 2        | High     | 0.56   | Valley View Rd - from Sugar River State Trail to Edelweiss Road.  |
| 3        | Low      | 0.49   | Highway 39 - from Klitzke Rd to Village boundary.   |
| 4        | Low      | 2.87   | County O to Old Madison Rd - From County Highway O at the Village Boundary, right on to Old Madison Rd to Highway 69 then split north to Spring Valley Rd and split south to Windmill Ridge Rd. |
| 5        | Low      | 0.75   | County Highway O - from Highway U to Old Madison Rd.  |
| 6        | Complete | 1.4    | Durst Rd - from Village boundary 1.41 miles west - Completed!   |
| 7        | Medium   | 1.52   | County Highway H - from State Highway 69 to County Highway N.   |
| 8        | Medium   | 1.59   | County Highway N - from County Highway H to Tuttle Lane.  |
| 9        | Medium   | 0.38   | Klitzke Road - from State Highway 39 to Legler Valley Road.   |
| 10       | Medium   | 0.51   | Legler Valley Road - from Klitzke Road to Village of New Glarus corporate limits to the east.   |

|---|--|------------|---|
| Goal                                    | Strategy   | Time frame | Responsible Parties   |
| G1                                      | Continue to search for a site appropriate for a Town parks.  | Ongoing    | Parks Commission, Joint Parks Commission, Plan Commission, School District  |
| G1 & G4                                 | Review potential for park opportunities at the Town's newly acquired land in 2022.   | Immediate  | Park Commission, Ad-Hoc Committee and Town Board  |
| G1                                      | Research the demand and feasibility of adding soccer and baseball fields or coordinating with other communities in Green County for the increased demand for fields. | Ongoing    | Parks Commission, Green County Property Committee, Insurance Committee, Green County Leaders, School Districts, Joint Parks Commission, Soccer Associations |
| G1                                      | Explore property for potential tennis/pickleball court.  | Ongoing    | Parks Commission  |
| G1                                      | Support current and future summer recreation activities as identified by Town residents.   | Ongoing    | Parks Commission, Joint Parks Commission  |
| G1                                      | Continue to explore possibility of ice skating rink.   | Ongoing    | Parks Commission, Joint Parks Commission, Town Board, Village Board   |
| G1                                      | Explore the possibility and potential location for Town Community Garden.  | Ongoing    | Park Commission, Ad-Hoc Committee and Town Board  |
| G1                                      | Continue the restoration efforts of the prairie remnant and oak savanna at the Blue Bird Ridge Conservancy and promote its use as a classroom tool.                  | Ongoing    | Parks Commission  |
| G1 & G4                                 | Develop the park identified in the Future Park Map   | Short-Term | Park Commission, Ad-Hoc Committee and Town Board  |
| G1 & G2                                 | Develop the trails identified in the Future Trails Map.  | Ongoing    | Parks Commission, Town residents, Green County Tri-county trails committee  |
| G2                                      | Add "Refer to CORP" to a development checklist to make sure park and trail recommendations are included in developer's plans   | Short-Term | Town Staff/Administration, Plan Commission, Parks Commission  |
| G2                                      | Ensure land owners, Town residents and DNR have input in the trail development.  | Ongoing    | Parks Commission  |
| G2                                      | Collect park impact fees from new developments sufficient to meet the anticipated cost of providing park improvements.   | Ongoing    | Parks Commission, Plan Commission   |
| G2                                      | Identify existing and potential schools, parks, paths, Ice Age Trail and community connection points.  | Ongoing    | Parks Commission  |

## Town of New Glarus CORP Recommendations

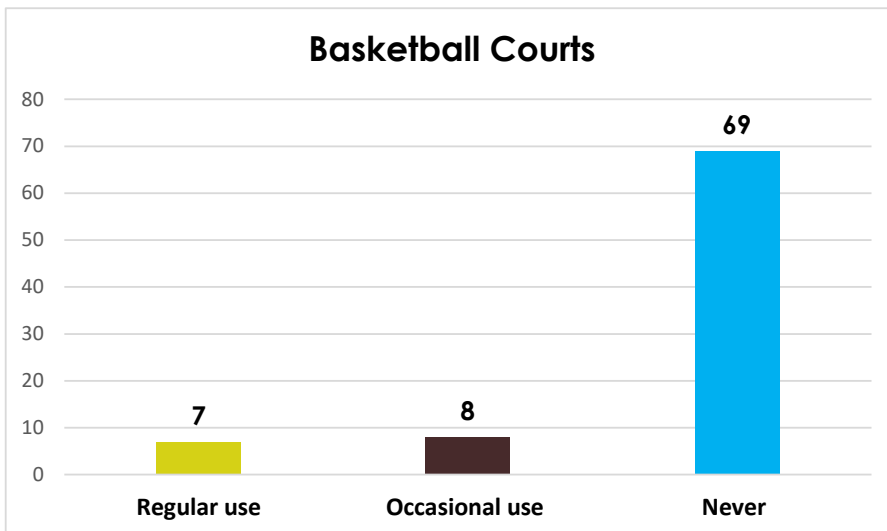

| Goal | Strategy   | Time frame            | Responsible Parties   |
|------|--|-----------------------|---|
| G2   | Establish a community park fund for donations.   | Immediate             | Parks Commission and Town Board                                     |
| G2   | Continue to dedicate a percentage of each year's park budget account for trail development.  | Ongoing               | Parks Commission  |
| G2   | Utilize best management practices to install trails including access for disabled users.   | Ongoing               | Parks Commission  |
| G2   | Research and obtain grants to support trail development.   | Ongoing               | Parks Commission, Joint Parks Commission, Town Board, Village Board |
| G2   | Acquire land through combination of state grants, federal grants, county grants, gifts, donations, and Town resources.   | Ongoing               | Parks Commission  |
| G3   | Mark conservancy areas with proper signage and list on Park Master Plan map.   | Ongoing               | Parks Commission  |
| G3   | Identify naturalist and environmental groups to assist with preservation and grant resources.  | Ongoing               | Parks Commission  |
| G3   | Establish guidelines to accept or acquire land for future development or preservations.  | Short-Term            | Parks Commission  |
| G3   | Consult with the Green County Forester regarding the Town tree planting program for interested property owners.  | Ongoing               | Parks Commission  |
| G4   | Work with the Village to reduce the Town of New Glarus non-resident fee for park programming and pool pass.  | Ongoing               | Parks Commission  |
| G4   | Continue to work with the Village on building a joint community center.  | Ongoing               | Parks Commission, Joint Parks Commission                            |
| G5   | Create a volunteer database that receives quarterly notices about volunteer opportunities. Utilize the contact information from the community survey of participants that noted to be notified of volunteer opportunities. | Immediate and ongoing | Parks Commission  |
| G4   | Create partnership guidebook that includes engagement with the business community, press releases, recognizing the business support in the news and online, and potential naming rights.                                   | Immediate and ongoing | Parks Commission  |
| G5   | Continue to provide the workshops and look to develop new workshops.   | Ongoing               | Parks Commission  |

## Appendices

- Appendix A – Community Survey Results**
- Appendix B – Fee Resolutions**
- Appendix C – New Glarus Woods State Park Map**
- Appendix D – Workshop Information**
- Appendix E – Stream (Fishing) Map**

# Appendix A

1. The following recreational opportunities and facilities are available at the Town and Village parks and conservancies. Please indicate how often your household uses each of these amenities.

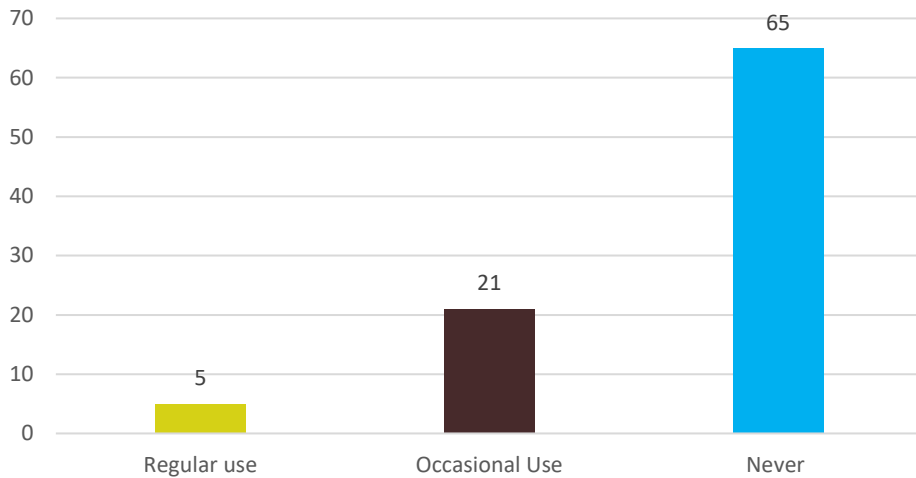

### Tennis Courts

### Conservancies

### Sand Volleyball Court

### Paved hiking/biking along roadway

### Playgrounds and Equipment

2. If there is a facility or recreational opportunity that your household uses that is not listed above, please indicate it below and how often your household uses it.

1. Sugar River
2. Fishing in local streams,
3. Snowmobile trails; UTV trails (where allowed); Golf Course (occasionally)
4. Let's talk about converting abandoned Tennis courts into Pickleball Courts. Would use 3 or more times weekly. Fastest growing sport in America.
5. We use the State bike trails to run, walk or bike almost every day of the year.
6. Bike trails please add
7. The baseball field usage is limited due to the programs offered and field availability. Our family has chosen to play baseball in Verona to get consistent programming.
8. canoeing kayaking and paddleboarding.
9. New Glarus Woods
10. Pickle ball (on tennis courts)
11. We use our town road for walking 1-2 times a week.
12. Cross country skiing. 5x annually
13. YMCA 5 times a month
14. NG Woods Park - regular user
15. pickle ball
16. Encourage collaboration with the Village for joint use projects to minimize costs and maximize services.
17. Track - 10X per year, indoor pool 15X per year

### 3. Please provide any comments you may have regarding the Town's and Village's existing outdoor recreation facilities and amenities below.

1. Town residents have to pay additional charges over Village residents to participate in Village activities for programs at their facilities. The Town does not have any of their own athletic facilities separate from those of the Village, and the Village's fields are significantly lacking to provide space for the number of kids in their programs, such as summer baseball and softball. For example, most other communities around us have more fields where the Village has only one softball and one baseball diamond. I would like to see the Town partner more with the Village to construct additional athletic fields (located either in the Town or the village), and in doing so in exchange for the Town's financial participation, eliminate the surcharge that the township kids are charged to participate in sponsored activities.
2. The tennis courts need repair and upkeep. This is a sport that all age groups can play
3. The paved bike path in town to the state is in horrible condition. Tennis courts need resurfacing as well.
4. Baseball/softball fields should include more amenities for the sports such as batting cages and pitching areas (especially at Glarner Park). I think the town should provide more money to the village to share these costs. I would prefer to pay residential rates to the village for programs rather than non-residential.
5. Instead of building new they should concentrate on maintaining or expanding existing. For example an indoor pool facility to use year round would be awesome.
6. Assume this question is about question number 1, if so that is above not below. I would like to say however that I do think the Tennis Courts need attention and are a great asset we should renovate. Also, we favor many more trails connecting outlying areas of the Town to the Village. In particular we strongly favor connecting the State Park Woods to the trail going into the Village.
7. "As an avid bicyclist I would like to see future road improvement include a paved bicycle lane (at the edge of each lane, not a separate bike path) or at least consider it during design. Having spent 34 years in the civil engineering field I am well aware of the increased costs, problems and design restraints - limited right of way, etc.  
Biking is becoming more and more popular each year so I think it is important for the Township to be proactive in this regard. I would also comment that I think the Township has done very well keeping the taxes reasonable - most of us are aware that we can't have improvements without raising taxes. I would just hope that consideration be given as we move forward. Thank you."
8. Now that I'm over 65 and my kids are grown, I don't use many facilities. When my kids were around, we did use these facilities often.
9. The bike trail is an extremely rough ride. Consider adding fresh stone to bike trails or consider corporate sponsorship to pave bike trail. This seems to work with bike trails in northern Wisconsin. This might be outside of this pole, but I do feel you will attract more visitors with a nicer bike trail.
10. We would like to see a Town public park and joint Town-Village pickleball courts.
11. I didn't know that the Town and Village had any conservancies. Our children definitely used the other recreation facilities/amenities when they were growing up, and we look forward to using playground equipment when grandchildren visit.
12. Add bike trails
13. Tennis courts aren't used because of poor condition.
14. It would be great to have Town and village support to keep the little sugar river open for paddling recreation! A few Village citizens opened (cut fallen tree obstructions) the river from the Kubly Elmer road area down to the Exeter area. Possibly ask the NG Brewery for an access/landing point? Another access could be North at a bridge or South along DNR land along the Sugar river bike trail.
15. The town and village have a great variety of existing recreational facilities. Compared to other towns and villages around Wisconsin of comparable size, New Glarus has significantly more opportunities than other communities. The Sugar River Trail and New Glarus Woods State park are also available for anyone to use.
16. I understand that the softball and soccer fields in the Village are over-capacity.
17. Would like to have trails extended north of the village to utilize for walking biking running.
18. Add pickleball lines to tennis courts
19. The neighborhoods north are disconnected from the village and highway 69 is not safe for foot or bike traffic. Please consider building a recreation trail alongside highway 69.
20. Village does not seem to take much care in recreation facilities, tennis courts by high school are a mess and grass at new baseball field far too long before first cutting.
21. Love the parks for our family and pool!
22. I feel our facilities need to be updated. We travel to other communities regularly for youth sports and our facilities are lacking to say the least. I think it is time to put some effort into, at minimum, maintaining these facilities and ideally making improvements! A working concession stand, bleachers at every facility, nets on the tennis courts and a court that is in decent shape to play on and better parking for some of the parks.
23. There are some facilities however no cohesive plan to expand/market

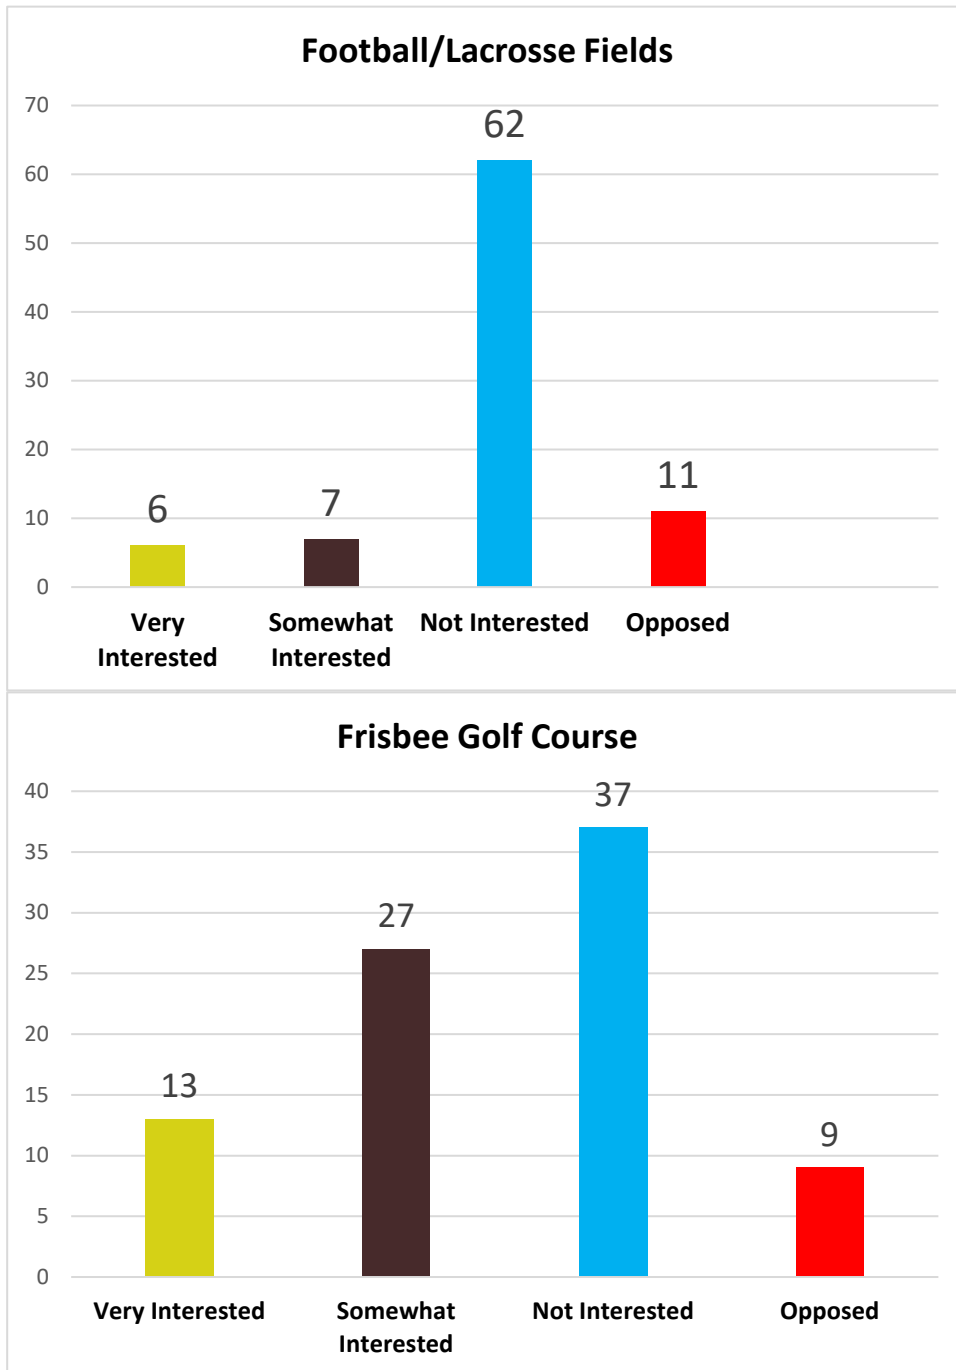

3. Please provide any comments you may have regarding the Town's and Village's existing outdoor recreation facilities and amenities below.  
(continued)

24. "Are efforts being made to ask residents to consider bequeathing land/preservation funds to Town in their wills?"
25. I am very aware of what the Village offers for outdoor recreation facilities and amenities. I am not sure of what the Township is currently offering or where they are even located. I struggle with the fact that the Township wants to pursue outdoor recreation facilities and amenities when we are so close to those offerings in the Village along with the proximity of the State Park and the bike trail in our own backyard. My taxes already support the State Park and bike trail. We have these wonderful facilities yet people still choose to run or bike on the very dangerous Hwy 39.
26. I feel like some are kept up well and others not. For example, there are broken swings at the village park playground that haven't been replaced or fixed for a while now. New playground equipment would also be nice.
27. CURRENT FACILITIES ARE SUFFICIENT
28. We need new tennis/pickle ball courts!
29. Might there ever be an outdoor ice rink in winter?
30. pickle ball
31. Any plans for pickleball courts?
32. It would be really nice to have a trail that connects the south side of the NG township into town and out to the north side of the township. Basically, a trail on valley view road that connects to the state park trail (currently dangerous for short stint on highway 69), then also runs a loop to the north side township as well. Clearly tied into going through the town of New Glarus in between.

4. The following recreational facilities/services are not available in the Town of New Glarus. Please rate each of the following items regarding your household's interest in the Town exploring these services.

4. The following recreational facilities/services are not available in the Town of New Glarus. Please rate each of the following items regarding your household's interest in the Town exploring these services.

### Indoor Community Recreation Center

### Designated Mountain Bike Trails

### Outdoor Ice-Skating Rink

### Adult Recreational Programs

### School-Year Recreational Programming

### Trails that connect the Town to the Village

### Pickleball Courts

**Q5. The Town works to obtain property easements to link existing and proposed trails. How important is it to you that the Town continue to obtain these easements, extending existing trails?**

- Very Important
- Somewhat Important
- Not Important
- Opposed

Q6. Are there missing trail connections you would like to see? Where would you like connections added?

1. Old Madison/69 to the Village which would connect the Windmill Ridge Sub and possibly Highlands too
2. Perhaps a safe walking trail from the Village to Baileys Run Winery
3. A trail along Hwy O and Pioneer to connect into town. Expansion of bike trail along Hwy 69N to connect to Bellevilles trail system.
4. Yes, connect the State Park Woods to the trail into the Village.
5. A trail along CTH NN, N and H; a trail along the west side of Hwy 69 where the snowmobile trail is located to provide safe access to the Village for the residents of the Highlands and Windmill Ridge; a trail along Hwy. 39 west of the Village to Bailey's Run; a trail connecting Valley View Road to the Sugar River Trail and also to the New Glarus Brewery.
6. Old Madison Road to the Village.
7. Wind mill ridge, blue vista
8. "North along the river."
9. North of village limits along Hwy O
10. Along the hwy 69 corridor north of the village
11. County N
12. Old Madison Road area to town.
13. South end- the trail that ends at the clinic entrance should go up around the high school and follow the village edge on the west heading north all the way around tower circle and cross 39 to go all the way around to nursing home
14. Hwy 69 From Spring Valley to Village.
15. Trails should lead DIRECTLY from township areas into village, not making big loops. Trail heads should have designated parking areas NOT on roadsides abutting personal property. Would prefer ATVs and UTVs not be allowed on trails.
16. Township to village
17. Continuation of the bike lane on Valley View Road. From Edelweiss Rd to the sugar river trail (at a minimum) or all the way to town.
18. Trail connections North of the village
19. As mentioned above. Link the state park trail with an easier direct crossing of highway 69 to valley view, which then already connects to the main trail into town/by golf course

7. Please list any recreational amenities that the Town lacks or are not listed above that you wish were available.

1. Indoor pool
2. Off leash dog park
3. Winter sledding hill!!! Additional softball/baseball field. Soccer fields.
4. Dog recreation area with agility equipment similar to the one in Monroe
5. A community center to use for both children and adults.
6. "Horseback riding trails"
7. Cross country ski/snowshoe trails if we ever get snow in the appropriate months. Fat tire bike trails.
8. Atv trails
9. Soccer fields that could be used for tournaments. This would be good for bringing families into the community for food/shopping/lodging/etc.
10. Parks
11. Designated cross country ski trails.
12. Mt bike trails, dog park,
13. baseball/softball field access is extremely limited.
14. Paddling access along the river!
15. Parking along Windmill Ridge Road, adjacent to the Bluebird Ridge Conservancy
16. UTV and Neighborhood electric vehicle (NEV) street and trail access.
17. Recreational programs for all would be a wonderful addition.
18. More gym space, recreational space/facilities for youth
19. UTV and ATV allowed. Almost all other towns interested in tourism allow these without issues
20. Wish there was more young family recreation, like a splash pad area
21. Senior Center, community meeting rooms that aren't linked to the library/Village Hall
22. Splash pad
23. Adult kickball
24. Outdoor ice skating would be very cool. But overall you all do an amazing job!
25. pickle ball courts
26. Splash pad
27. Improve the baseball/softball facilities, add a track

Q8. Please indicate how you think development of recreational facilities should be primarily funded.

Q9. Maintenance of recreational facilities should be primarily funded by

**12. Which category below includes your age?**

**What is your Gender?**

**How many kids do you have under 18?**

**How many years have you lived in the Town?**

## Appendix B

### VILLAGE OF NEW GLARUS RESOLUTION 16-05

#### RESOLUTION TO ESTABLISH 2016 SCHEDULE OF FEES FOR USE OF NEW GLARUS VILLAGE PARKS AND SWIMMING POOL

THE VILLAGE BOARD of the VILLAGE OF NEW GLARUS, GREEN COUNTY, WISCONSIN does hereby establish the following fee schedule:

[All pool / recreation programs purchased by April 30, 2016 will receive a 5% discount]

[1/2 price passes will be available starting August 1<sup>st</sup>]

#### POOL PROGRAMS

| SEASON PASS              | RESIDENT | NON-RESIDENT |
|--------------------------|----------|--------------|
| Family (2-4)             | \$95.00  | \$165.00     |
| Each Add'l Family Member | \$11.00  | \$15.00      |
| Single                   | \$50.00  | \$85.00      |
| Child – 4 and under      | \$20.00  | \$25.00      |
| Daycare Provider         | \$15.00  | \$15.00      |

| DAILY PASS  | RESIDENT | NON-RESIDENT |
|-------------|----------|--------------|
| Adult       | \$3.00   | \$5.00       |
| Child       | \$2.00   | \$3.00       |
| Shower Only | \$2.00   | \$3.00       |

| SWIMMING LESSONS    | WITH PASS | WITHOUT PASS |
|---------------------|-----------|--------------|
| Preschool – Level 6 | \$20.00   | \$45.00      |

| SWIM RECREATION PROGRAMS | RESIDENT                  | NON-RESIDENT             |
|--------------------------|---------------------------|--------------------------|
| Splish-Splash            | \$25.00                   | \$30.00                  |
| Adult Water Aerobics     | \$45.00 / \$3.00 Session  | \$50.00 / \$4.00 Session |
| Early Bird Lap Swim      | \$45.00 / \$3.00 Session  | \$50.00 / \$4.00 Session |
| Swim Team                | \$60.00 / Village Portion |                          |

2 Hours / \$100.00\*

Birthday Bubbles

\*Staff is authorized to increase fee should additional guards be required due to number of attendees.

**PARK / RECREATION PROGRAMS**

|   | <b>RESIDENT</b>   | <b>NON-RESIDENT</b>                  |
|---|---|--------------------------------------|
| Baseball (3-8 Grade)                    | \$55.00   | \$65.00                              |
| Softball (2-8 Grade)                    | \$55.00   | \$65.00                              |
| Minor League<br>Baseball/Softball       | \$25.00   | \$30.00                              |
| Major League<br>Baseball/Softball       | \$25.00   | \$30.00                              |
| Touchdown Club                          | \$25.00   | \$30.00                              |
| Ride and Slide                          | \$25.00   | \$30.00                              |
| Park Reservation Fee                    | \$25.00   | \$35.00                              |
| Men’s Softball                          | \$150.00 per team   |                                      |
| Coed Kickball                           | \$150.00 per team   |                                      |
| Coed Sand Volleyball                    | \$100.00 per team   |                                      |
| Triathlon                               | Prior to Event  | Individual-\$55.00      Team-\$75.00 |
|   | Day of Event  | Individual-\$65.00      Team-\$90.00 |
| Sport Camps                             | Daily Park Usage Fee plus Additional Costs                                |                                      |
| Sport Leagues (not operated by Village) | \$230.00 per league   |                                      |
| Tournaments (Hosting)                   | \$75.00 includes concession stand. Plus all other necessary license fees. |                                      |

AND DOES FURTHER RESOLVE that all fees shall be paid to the New Glarus Village Treasurer prior to the start of the program.

AND DOES FURTHER RESOLVE that adult shall be defined as an individual having graduated from High School, having completed the equivalent of K-12 education, or 18 years of age;

That family shall be defined as no more than two adults living together and their natural, adopted or foster children whether living with parent or not. If families have a summer daycare provider, they may add that person to their family pass for an additional \$15;

That all season pass fees shall be paid to the New Glarus Village Treasurer before beginning swimming lessons and/or prior to the use of the pool;

Any cancellation made after the registration deadline is subject to a \$5.00 surcharge. No refunds will be given after the first session or practice has taken place, other than in the case of a severe illness or injury that prevents participation. Full refunds will be given for all programs cancelled by the Village. Refunds will be made by check and mailed to the address provided on the registration. Group discounts information can be obtained at the Village Offices.

Tree Sale Pickup / Electronics Recycling Event  
Saturday, April 22<sup>nd</sup> from 9 AM to 12 PM at New Glarus Town Hall

In this dual-purpose session, the Town Parks commission will have trees from the yearly tree sale for pickup available, but also are providing Town residents with the opportunity to recycle electronic devices properly. Come pick up your trees and help the environment further by recycling your unwanted electronics! The recycling event is open to all town residents and is free except for tube TV's mentioned below.

- ❖ **Accepted Items:** Flat Screen TVs, Laptops, Desktops, Flat Screen Monitors, Cell Phones, Heaters, VCRs, Cable Boxes, Stereos, Speakers, Any appliance or tool with a cord, Stoves, Microwaves, and Dishwashers.
- ❖ **Items NOT Accepted:** Refrigerators and Air Conditioners
- ❖ **Tube Televisions** less than 27" - \$5.00 Fee    **Tube Televisions** over 27" - \$25.00 Fee

**Town of New Glarus**  
**P.O. Box 448**  
**New Glarus, WI 53574**

2023 Workshop Information on other side!

# 2023 Town of New Glarus Park's Workshops

## Prairie Education and Management

Saturday, Feb 25<sup>th</sup> 2023

2 PM – 4 PM @ Tofflers Pub – New Glarus

Please join us as we gather at Toffler's Pub upstairs to hear three different speakers on the topic of prairie management and learn about both native and invasive species. Come learn about why restoring and maintaining these types of landscapes is important and worthwhile. There will be discussion on the different types of native plants that conservationists like Fil, Jason and Matt are trying to educate residents to promote. They will also talk about strategies for controlling invasive plants that can reduce diversity by overwhelming the ecosystem. **Refreshments will be provided!**

## Presenting at the workshop

### Fil Sanna – Spring Valley Tract Project

Fil Sanna is a volunteer site steward supporting a new project to restore over 300 acres of land owned by the Driftless Area Land Conservancy just north of New Glarus. Fil is a student of the ecology and history of the site and is now immersed in field work.

### Jason Granberg – Conservation Biologist, Wisc. DNR

Jason's work focuses on combatting invasive species here in Wisconsin. In particular, he has been working on coordinating data and reporting efforts and with residents to work holistically and across communities.

### Matt Wallrath –Upper Sugar River Watershed Assn.

As the invasive species coordinator for the USRWA, Matt travels as a field educator and organizes invasive removal efforts across south-central Wisconsin. He also is a founding member of SCIP, a partnership organization seeking to unite communities in these efforts.

## River Tripping Workshop

Saturday, April 15<sup>th</sup> 2023

2 PM – 4 PM Town Hall – New Glarus

Everything you need to know about planning your Wisconsin river trip! Andrew and Ethan will cover a range of topics during this workshop that include the following and more. **Refreshments will be provided!**

- Navigating River Trips
- Finding planning tools and resources
- Expecting the "unexpected"!
- Choosing your location
- Planning routes
- Water temperature considerations
- Where to camp
- Emergency Kits
- What to pack
- Gear / Food and Water Needs
- How to handle quickly changing weather
- What to do in an emergency happens

## Presenting at the workshop

Father and son **Andrew and Ethan Elkins** have been canoe, kayak, and paddleboard camping all their lives. Andrew began his outdoor adventures in the Boundary Waters at age 5 and Ethan at age 3. Andrew and Ethan are happiest when exploring and surrounding themselves in nature.

Both have been involved in Boy Scouts. Andrew was a Scoutmaster and Ethan earned the honor of Eagle Scout. They enjoy giving speaking events on advanced outdoor skills for Scouting groups, REI and at Canoecopia. In 2016 they crossed 200 miles and 45 portages through the Boundary Waters using the Border Route on paddleboards. In the summer of 2019, they paddle boarded from Stevens Point, WI to the Mississippi on the Wisconsin River.

# POLLINATOR HABITAT KITS

FOR WI FARMERS AND  
COMMUNITY FOOD INITIATIVES

working landscapes for pollinator protection

The Xerces Society is offering free habitat kits that contain pollinator-friendly native wildflowers and grasses to Wisconsin farmers and community food initiatives who are excited to provide the land, time, and labor to develop and manage a habitat project.

**Project proposals open Feb 1, 2023!**
